More than 60,000 people have signed a petition denouncing National Review ' s David French for criticizing Franklin Graham ' s moral surrender to Trumpism. " This character assassination by David French is unconscionable and should not go unchallenged, " declares the petition on the website of the American Family Association. It is the latest shot fired in the cultural civil [...]

SIX IDEAS THAT SHAPED PHYSICS is the 21st century's alternative to traditional, encyclopedic textbooks. Thomas Moore designed SIX IDEAS to teach students: --to apply basic physical principles to realistic situations --to solve realistic problems --to resolve contradictions between their preconceptions and the laws of physics --to organize the ideas of physics into an integrated hierarchy.

For single parents, working parents, and caregivers who worry about the time they spend away from their children, the mother of The Other Wes Moore shares strategies to raise happy, well adjusted kids. As the mother of Wes Moore, whose memoir about overcoming the obstacles that face a fatherless young black man was a huge bestseller, Joy is constantly asked: How did you do it? How can you be a good parent, have a career and stay healthy when you don't have a partner to pick up the slack? How do you connect with a child when you can't always be there? Joy's answer is "presence." Specifically, seven different ways of being a force in a child's life, ensuring that they feel your influence. We can't always be physically there for our children, but the power of presence can help us to be a voice in the back of their minds that guides them through difficult times. In The Power of Presence, Moore explores seven pillars of presence--heart, faith, mind, courage, financial freedom, values, and connectedness--that all parents can use to positively influence their children. Using compelling stories from women who have been there and practical advice on everything from savings accounts to mindfulness, this book is a compassionate look at what it takes to raise great kids even in less than ideal circumstances. /div
