A computer virus is a program or piece of code designed to damage your computer by corrupting system files, wasting resources, destroying data or otherwise being a nuisance. Viruses are unique from other forms of malware in that they are self-replicating - capable of copying themselves across files or other computers without a user's consent.

end of each chapter in the form of Exercise. Solutions to the Exercise have been provided at the end of each chapter. 4. An exclusive coverage of the topics asked in the examination. 5. The book provides thoroughly updated General Awareness section with Current Affairs till date.

This book is for anyone interested or involved in teaching, training, or instructing, whether you are just getting into the field or thinking about it or you have been teaching for decades. It is for those who administer teaching, training, or instructing. The book was written for academics and those who teach in academies and other professional adult learning environments. The book's contents are applicable to all types of colleges, be they community colleges, four-year colleges, or universities, both private and public, for-profit or nonprofit. Most professional practitioner-type instructors go through some sort of instructor school, teachers earn degrees in teaching, but many who teach or instruct are never trained or taught how to teach or train. Few professors are taught how to teach. They have been taught, so this is where they often draw their own teaching styles. Regardless of where you teach, train, or instruct, this book and its contents are for you. The book goes into great detail regarding face-to-face classes as well as online and other delivery methods. The lessons found in this book can be applied to new students, undergraduate, or graduate students. The lessons apply equally to basic, in-service, and specialized training. My hope is that no matter how great of an instructor you are, you will find many new nuggets of information that will add to your teaching toolbox. One of my goals in life is to leave a positive lasting impact. I want to help students and other instructors recognize and reach their full potential. I want you to be the best instructor you can be. I strongly believe we impact people all the time whether we know it or not. You can and will make a big difference in your students' lives.
