In a resort town turned internment camp, a female prisoner is brutally murdered Before the war, the hotels of Vittel hosted the wealthiest members of French society. Now, in the winter of 1943, two of France's most luxurious resorts have been converted into an internment camp for British and American women who failed to escape the country when the German army stormed across the border. For two years, the prisoners have lived quietly, surviving on Red Cross aid packages, but now they are beginning to die. An American woman is found stabbed through the heart with a pitchfork. By the time inspectors Jean-Louis St-Cyr and Hermann Kohler arrive from Paris, rigor mortis and the February frost have frozen her solid. In her pockets are Cracker Jacks and Hershey bars--bribes intended for one of the guards. To bring justice to Vittel, St-Cyr and Kohler will have to unravel the conspiracy that is at the heart of this luxurious, elegant hell.

It takes hard work and decisions to ensure customer-centric behaviour from all your employees - not just slogans and happy thoughts. Everyone talks about creating a customer-centered culture but in this work, the executive who pioneered FedEx's customer culture shows how to make it happen.

Creating and dominating a brand new market is the Holy Grail for business owners and managers. Having no competition means that you can make and survive mistakes, attract and keep top talent, and price to market rather than to competitive pressure. What's more, when you prove that your're a market visionary, you can expect increased profits and higher stock prices to reward your efforts. And you'll enjoy the excitement and satisfaction -- the sheer fun -- of creating something new. But for every new market success, there are countless enterprises that burn millions of dollars trying and failing to create a viable market. How can companies avoid such failures? Creating and Dominating New Markets gives you a blueprint for doing just that. Packed with specific applications and ideas, this breakthrough book shows you how to emulate the remarkable triumphs of savvy companies like Microsoft, FedEx, and Palm. It recounts the fascinating stories behind market-creating companies like Daimler at the turn of the century and America Online at the dawn of the Internet age. The book explains how to formulate a plan for market domination, first by tackling basics -- like what factors all successful new market ventures have in common -- and then by exploring how to determine the right niche to target.

The unbelievable true story of three pilots flying a routine Federal Express flight who must call on their inner courage, strength, and ability to stop a bitter, suicidal hijacker from killing them, and thousands of people below. David Sanders, Jim Tucker, and Andy Peterson had taken off on a regular “out-and-back,” delivering and picking up packages for FedEx’s next-day service. They had one jumpseat passenger, an off-duty colleague who they assumed was simply taking advantage of the FedEx perk allowing virtually all employees to ride the company jets for free. The shock came twenty minutes later. Before the plane had reached its normal cruising altitude, the lone passenger attacked the pilots with hammers and a spear gun. He’d had his diabolical plan in the works for months: by crashing the plane into the Federal Express Memphis hub, he’d ruin the company, which he felt had treated him unfairly. With superhuman strength fueled by sheer fury, the attacker struck the pilots again and again. What he didn’t count on was the skill and intelligence of the pilots. While Sanders and Peterson tried to stop the relentless battering, copilot Tucker swung the aircraft into dangerous flight maneuvers in an attempt to literally knock the man off his feet. In Hijacked, Dave Hirschman vividly re-creates this hair-raising battle of wills, giving each pilot’s point of view and drawing on his own experiences as a pilot to take us inside that fateful day.
