a requirement in many states for teaching licensure. Through edTPA, teacher candidates demonstrate their effectiveness in different aspects of teaching, including planning, instruction, assessment, analysis of teaching, and use of academic language. edTPA implementation.

The chapters are written by experienced teacher educators who are leading successful edTPA programs in their own universities, who are in the field, and involved in the work.

They represent diverse teacher preparation programs, each with their own strengths and challenges. This book

addresses the challenges of edTPA, while providing practical strategies for educative and thoughtful implementation.

Organized into four sections, each section explores a different aspect of edTPA implementation, and provides guidance for leading faculty and teacher candidates

The concept of "funds of knowledge" is based on a simple premise:

people are competent and have knowledge, and their life

experiences have given them that knowledge.

The claim in this book is that first-hand research experiences with families allow one to
