Allergy is the sixth leading cause of chronic illness in the United States. More than fifty million Americans suffer from allergies, and they spend an estimated \$18

Online Library

Electricity Meter

billions coping with them. Yet despite advances in biomedicine and enormous investment in research over the past fifty years, the burden of allergic disease continues to grow. Why have we failed to reverse this trend?

Breathing Space

Online Library Electricity Meter

offers an intimate portrait of how allergic disease has shaped American culture, landscape, and life. Drawing on environmental, medical, and cultural history and the life stories of people, plants, and insects, Mitman traces how America's changing

Banaras, Varanasi,
Kashi: India's holy
city on the banks of
the Ganges has
many names but

holds one ultimate promise for Hindus.

It is the place where pilgrims come for a good death, to be released from the cycle of reincarnation by purifying fire. As the dutiful manager of a death hostel in Kashi, Pramesh welcomes

Electricity Meter

the dying and
assists families
bound for the
funeral pyres that
burn constantly on
the ghats. The soul
is gone, the body is
burnt, the time is
past, he tells them.
Detach. After ten
years in the
timeless city,
Pramesh can
nearly persuade

himself that here,
there is no past or
future. He lives
contentedly at the
death hostel with
his wife, Shobha,
their young
daughter, Rani, the
hostel priests, his
hapless but
winning assistant,
and the constant
flow of families
with their dying.

But one day the past arrives in the lifeless form of a man pulled from the river—a man with an uncanny resemblance to Pramesh. Called “twins” in their childhood village, he and his cousin Sagar are inseparable until Pramesh leaves to

reemergence casts a shadow over the life she's built for her family. Soon, an unwelcome guest takes up residence in the death hostel, the dying mysteriously continue to live, and Pramesh is forced to confront his own ideas about death,

—Publishers
