A Booklist Editors ' Choice and a Society of School Librarians International (SSLI) Honor Book Street gangs have exploded worldwide. Tattoos, baggy pants, tagging, gangsta style, the unspoken threat -- it's all just around the corner in most of the world's major cities. From the streets of Los Angeles to the shantytowns of Cape Town, hundreds of thousands of "at risk" youth are deciding whether they should join their local gang. Violence, guns, the drug trade, racism, poverty, families under pressure and ever-widening slums all provide a witch's brew in which the youth gang tempts young males and females with a sense of identity and belonging that their world has denied them. Gangs exposes the roots of the problem as it moves from the banlieues of France to the favelas of Brazil. It offers a startling analysis of the complicity of the official adult world and some controversial ideas for reforms that might just undermine the appeal of gang life. For many of the world's young -- especially those who are poor -- joining a gang is a real career choice. It is a choice that can be as deadly for young gangsters as for their victims. Richard Swift shows us that we fail to understand gangs at our peril.

With nearly 1,000 gangs and 200,000 gang members, Los Angeles holds the dubious distinction of being the youth gang capital of the United States. The process of street socialization that leads to gang membership now cuts across all ethnic groups, as evidenced by the growing numbers of gangs among recent immigrants from Asia and Latin America. This cross-cultural study of Los Angeles gangs identifies the social and economic factors that lead to gang membership and underscores their commonality across four ethnic groups—Chicano, African American, Vietnamese, and Salvadorian. James Diego Vigil begins at the community level, examining how destabilizing forces and marginalizing changes have disrupted the normal structures of parenting, schooling, and policing, thereby compelling many youths to grow up on the streets. He then turns to gang members ' life stories to show how societal forces play out in individual lives. His findings provide a wealth of comparative data for scholars, policymakers, and law enforcement personnel seeking to respond to the complex problems associated with gangs.
