The AlInGaN and ZnO materials systems have proven to be one of the scientifically and technologically important areas of development over the past 15 years, with applications in UV/visible optoelectronics and in high-power/high-frequency microwave devices. The pace of advances in these areas has been remarkable and the wide band gap community relies on books like the one we are proposing to provide a review and summary of recent progress.

This best-selling emergency department reference is now in its thoroughly updated Fourth Edition. The foremost authorities provide practical information on over 600 clinical problems in a fast-access two-page outline format that's perfect for on-the-spot consultation during care in the emergency department. Coverage of each disorder includes clinical presentation, pre-hospital, diagnosis, treatment, disposition, and ICD-9 coding. Icons enable practitioners to quickly spot the information they need. This edition provides up-to-date information on topics such as emerging infections, new protocols, and new treatments.

Choosing a career is one of the most critical decisions we make in our lives. Achieving a career that will bring both personal and professional fulfillment can often be like solving a puzzle. Games2Careers will remove the mystery in the career planning process and reveal the rules of the game. You will discover how your childhood interests are the secret to finding career success. This book is for anyone and everyone students, parents, grandparents, teachers, career counselors who wants to win at the career game! Testimonial "The concept of Games2Careers, which, in unique fashion, uses a young person's natural abilities to stimulate career choices, is long overdue in print. I have no doubt this book will change the lives of countless students who are exposed to its wisdom." Scott Passeser, Host of News 12 Long Island's Jobline
