For more than a million years, man's utter dependence on technology has been producing a host of intricate problems. For example, we steadily reduce the need for human labor while finding ways to increase life expectancy. We mass produce the automobile without grasping the harsh effects it leaves on the environment. The Human Legacy concerns the evolution and development of man—physically, socially, psychologically—into the latest version of the species we see around us today. The author paints an intriguing picture of man, living in complex societies and trying to solve the unanticipated consequences of action.

Raise awareness on the many important functions of the human body without having to spend hours reading text. This educational book is a gift to children and parents, who desire independent learning. The use of pictures and select texts make this book very easy to learn and appreciate. Grab a copy today!

Drawing on firsthand, intimate interviews with the few remaining survivors of Japan's kamikaze corps, a thought-provoking study offers a revealing glimpse into the lives, attitudes, beliefs, and mindsets of former kamikaze pilots who never completed their suicidal missions.

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

With "Sustainability: A Comprehensive Foundation," first and second-year college students are introduced to this expanding new field, comprehensively exploring the essential concepts from every branch of knowledge - including engineering and the applied arts, natural and social sciences, and the humanities. As sustainability is a multi-disciplinary area of study, the text is the product of multiple authors drawn from the diverse faculty of the University of Illinois: each chapter is written by a recognized expert in the field.

Sinjin Cameron is a broken man, living in a world filled with death, danger and deceit. His days are spent fighting for justice, his nights fighting the demons that plague him. His job and his demons interrupt everything most important to him, especially his ability to love. While he longs for love, he knows he can never have it. Not the kind he wants, the love of a good woman. No woman will ever understand his world of danger and demons. In rare moments of peace, he cannot deny his longing for Asia Carrington. She is the one good thing that haunts him. The love in his heart is battling with the demons in his head. Thinking to keep her safe, he pulls away. Yet she draws closer. Will he be able to conquer the demons, the danger, and the walls he

Eager to find a new life and, hopefully, true love, Lauren Celeste Newman moves from California for a new beginning in Cape May, New Jersey. The move quickly becomes her worst nightmare...a haunted mansion. Afraid of haunting's in her new home, Lauren is drawn to Hank, who is everything she has ever wanted. He is tall, dark, captivatingly handsome, filthy rich, and a genuine gentleman. Meanwhile, after meeting Lauren, Hank's hopes for a true and deep kind of love emerge. But he has a long, dark secret. Will Hank risk telling Lauren of his true identity, that he is actually Sir Hendrick Scott Saylor, a 16th century explorer? Nothing is as it appears to be in this epic, paranormal love story. See if desires can become a reality.
