Inside The Obriens
Inside the O'Briens is an outstanding novel, possibly my favorite of all 20 books I have read so far this year. It is written by Dr. Lisa Genova, author of Still Alice. Joe O'Brien is a 44 year-old Irish Catholic police officer living in Charlestown, MA, the oldest neighborhood in Boston.

Inside the O'Briens by Lisa Genova - Goodreads
In lots of ways Inside the O'Briens is like Still Alice, except that the illness is more physical than neurological (or should I say the symptoms are as Huntington's is a neurological disease). Like Alice, Joe was loosing a major part of himself, as a police officer his job was very physical where Alice's required her memory and intellect.

Joe O'Brien is a forty-four-year-old police officer from the Irish Catholic neighborhood of Charlestown, Massachusetts. A devoted husband, proud father of four children in their twenties, and respected officer, Joe begins experiencing bouts of disorganized thinking, uncharacteristic temper outbursts, and strange, involuntary movements. He initially attributes these episodes to the stress of his job, but as these symptoms worsen, he agrees to see a neurologist and is handed a diagnosis that will change his and his family's lives forever: Huntington's Disease. Huntington's is a lethal neurodegenerative disease with no treatment and no cure. Each of Joe's four children has a 50 percent chance of inheriting their father's disease, and a simple blood test can reveal their genetic fate. While watching her potential future in her father's escalating symptoms, twenty-one-year-old daughter Katie struggles with the questions this test imposes on her young adult life. Does she want to know? What if she's gene positive? Can she live with the constant anxiety of not knowing? As Joe's symptoms worsen and he's eventually stripped of his badge and more, Joe struggles to maintain hope and a sense of purpose, while Katie and her siblings must find the courage to either live a life "at risk" or learn their fate.

A New York Times bestseller □ A Library Journal Best Books of 2015 Pick □ A St. Louis Post-Dispatch Best Books of 2015 Pick □A GoodReads Top Ten Fiction Book of 2015 □ A People Magazine Great Read From New York Times bestselling author and neuroscientist Lisa Genova comes a “heartbreaking...very human novel” (Matthew Thomas, author of We Are Not Ourselves) that does for Huntington's disease what her debut novel Still Alice did for Alzheimer's. Joe O'Brien is a forty-three-year-old police officer from the Irish Catholic neighborhood of Charlestown, Massachusetts. A devoted husband, proud father of four children in their twenties, and respected officer, Joe begins experiencing bouts of disorganized thinking, uncharacteristic temper outbursts, and strange, involuntary movements. He initially attributes these episodes to the stress of his job, but as these symptoms worsen, he agrees to see a neurologist and is handed a diagnosis that will change his and his family's lives forever: Huntington's disease. Huntington's is a lethal neurodegenerative disease with no treatment and no cure, and each of Joe's four children has a 50 percent chance of inheriting their father's disease. While watching her potential future in her father's escalating symptoms, twenty-one-year-old daughter Katie struggles with the questions this test imposes on her young adult life. As Joe's symptoms worsen and he's eventually stripped of his badge and more, Joe struggles to maintain hope and a sense of purpose, while Katie and her siblings must find the courage to either live a life “at risk” or learn their fate. Praised for writing that “explores the resilience of the human spirit” (San Francisco Chronicle), Lisa Genova has once again delivered a novel as powerful and unforgettable as the human insights at its core.

When a beloved Irish-Catholic police officer is diagnosed with Huntington's Disease, his grown children witness their father's demise and consider whether they want to be tested to see if they have inherited the condition. By the best-selling author of Still Alice.

The breathtaking new novel from the author of STILL ALICE, now adapted into an Academy Award-winning film starring Julianne Moore. Joe O'Brien is a Boston cop; his physical stamina and methodical mind have seen him through decades policing the city streets, while raising a family with his wife Rosie. When he starts making uncharacteristic errors, he attributes them to stress. Finally, he agrees to see a doctor and is handed a terrifying, unexpected diagnosis: Huntington's disease. Not only is Joe's life set to change beyond recognition, but each of his four grown children has a fifty-fifty chance of inheriting the disease. Observing her potential future play out in his escalating symptoms, his pretty yoga teacher daughter Katie wrestles with how to make the most of the here and now, and how to care for her dad who is, inside, always an O'Brien. Praise for Inside the O'Briens: 'I urge you to read this book. The story is so uplifting and redeeming that it fills you with hope ... Quite simply brilliant!' Judy Finnigan 'Devastating. We climb into the hearts of a normal, chaotic, loving family. A story about the resilience of love in the face of a tragic, inevitable fate!' Julie Cohen, author of Dear Thing

An unforgettable saga of love, loss, and exhilarating change spanning half a century in the lives of a restless family, from the author of the acclaimed novel The Law of Dreams. The O'Briens is a family story unlike any told before, a tale that pours straight from the heart of a splendid, tragic, ambitious clan. In Joe O'Brien—grandson of a potato-famine emigrant, and a backwoods boy, railroad magnate, patriarch, brooding soul—Peter Behrens gives us a fiercely compelling man who exchanges isolation and poverty in the Canadian wilds for a share in the dazzling riches and consuming sorrows of the twentieth century. When Joe meets Iseult Wilkins in Venice, California, the story of their courtship—told in Behrens's gorgeous, honed style—becomes the first movement in a symphony of the generations. Husband and wife, brothers, sisters-in-law, children and grandchildren, the O'Briens engage unselfconsciously with their century, and we experience their times not as historical tableaux but as lives passionately lived. At the heart of this clan—at the heart of the novel—is mystery and madness grounded in the history of Irish sorrow. The O'Briens is the story of a man, a marriage, and a family, told with epic precision and wondrous imagination.

This is a book about living with Alzheimer's, not dying with it. It is a book about hope, faith, and humor—a prescription far more powerful than the conventional medication available today to fight this disease. Alzheimer's is the sixth leading cause of death in the US—and the only one of these diseases on the rise. More than 5 million Americans have been diagnosed with Alzheimer's or a related dementia; about 35 million people worldwide. Greg O'Brien, an award-winning investigative reporter, has been diagnosed with early-onset Alzheimer's and is one of those faceless numbers. Acting on long-term memory and skill coupled with well-developed journalistic grit, O'Brien decided to tackle the disease and his imminent decline by writing frankly about the journey. O'Brien is a master storyteller. His story is naked, wrenching, and soul searching for a generation and their loved ones about to cross the threshold of this death in slow motion. On Pluto: Inside the Mind of Alzheimer's is a trail-blazing roadmap for a generation—both a “how to” for fighting a disease, and a “how not” to give up! From the Trade Paperback edition.

From the bestselling author of Still Alicecom es a heartfelt novel about friendship and a mother coping with the loss of her autistic son Olivia Donatelli's dream of a 'normal' life was shattered when her son, Anthony, was diagnosed with autism at age three. He didn't speak. He hated to be touched. He almost never made eye contact. And just as Olivia was starting to realise that happiness and autism could coexist, Anthony died. Now she's alone in a cottage on Nantucket, separated from her husband, desperate to understand the meaning of her son's short life, when a chance encounter with another woman facing her own loss brings Anthony alive again for Olivia in a most unexpected way. In a piercing story about motherhood, love and female friendship, Lisa Genova offers us two unforgettable women on the verge of change who discover the small but exuberant voice that helps them both find the answers they need. Fans of The Reason I Jumpand The Curious Incident of the Dog in the Night-time will love Lisa Genova's story: always authentic and utterly moving. “Remember how you couldn't put down Still Alice? Well, clear your schedule-because you're going to feel the same way' Jodi Picoult\*

A moving story of a woman with early onset Alzheimer's disease, now a major Academy Award-winning film starring Julianne Moore and Kristen Stewart. Alice Howland is proud of the life she worked so hard to build. At fifty, she's a cognitive psychology professor at Harvard and a renowned expert in linguistics, with a successful husband and three grown children. When she begins to grow forgetful and disoriented, she dismisses it for as long as she can until a tragic diagnosis changes her life - and her relationship with her family and the world around her - for ever. Unable to care for herself, Alice struggles to find meaning and purpose as her concept of self gradually slips away. But Alice is a remarkable woman, and her family learn more about her and each other in their quest to hold on to the Alice they know. Her memory hanging by a frayed thread, she is living in the moment, living for each day. But she is still Alice. 'Remarkable ... illuminating ... highly relevant today' Daily Mail 'The most accurate account of what it feels like to be inside the mind of an Alzheimer's patient I've ever read. Beautifully written and very illuminating' Rosie Boycot 'Utterly brilliant' Chrissy Iley

“Unsparing in her depiction of the disease's harrowing effects, neuroscientist Genova also celebrates humanity.” —People “Sometimes it's easier to tell truth in fiction...And she tells it with heart and hope.” —NPR “Her juxtaposition of scientific detail with compassionate, heartfelt storytelling is unparalleled.” —Bookreporter “Every Note Played will grip and gut you.” —The Boston Globe From neuroscientist and New York Times bestselling author of Still Alice comes a powerful exploration of regret, forgiveness, freedom, and what it means to be alive. An accomplished concert pianist, Richard received standing ovations from audiences all over the world in awe of his rare combination of emotional resonance and flawless technique. Every finger of his hands was a finely calibrated instrument, dancing across the keys and striking each note with exacting precision. That was eight months ago. Richard now has ALS, and his entire right arm is paralyzed. His fingers are impotent, still, devoid of possibility. The loss of his hand feels like a death, a loss of true love, a divorce—his divorce. He knows his left arm will go next. Three years ago, Karina removed their framed wedding picture from the living room wall and hung a mirror there instead. But she still hasn't moved on. Karina is paralyzed by excuses and fear, stuck in an unfulfilling life as a piano teacher, afraid to pursue the path she abandoned as a young woman, blaming Richard and their failed marriage for all of it. When Richard becomes increasingly paralyzed and is no longer able to live on his own, Karina becomes his reluctant caretaker. As Richard's muscles, voice, and breath fade, both he and Karina try to reconcile their past before it's too late. Poignant and powerful, Every Note Played is a masterful exploration of redemption and what it means to find peace inside of forgiveness.

To learn more about learning – what it is and how it works – it is necessary to look inside education. Inside Education takes the reader on a journey of four 'live' education projects: the first all-Irish speaking, mixed-gendered, multi-faith primary school in the Republic of Ireland ideally suited to exploring learning identity; an alternative post-primary school for those who leave (or are left behind by) the formal education system also based in the Republic of Ireland and ideally suited to exploring personal learning; an early college school that enables students to simultaneously sit their high-school diploma and college exams based in Queens, New York and ideally suited to exploring learning success; and an adult education training centre that works with 'landless' movement members based in Brazil and ideally suited to exploring learning power. Using a critical ethnography approach, each research narrative naturally unfolds/enfolds to tell a more complete learning story. All those interested in education are primed readers. By (re-)viewing their own learning outlook, they may begin to advance deeper critical ideas and debates in education. They may come to (re-)represent education, reminding public consciousness of its human stories, as well as its curious, intricate and powerful qualities. And they may (re-)discover 'other' roads to raise a scholar. Teachers, educational researchers, parents and guardians will be particularly interested readers. 'Inside Education is a thought-provoking, challenging and revealing journey inside the world of education and learning. Its exploration of school and classroom practices in a range of different settings provides important insights into how we learn – a central aspect of our education system which remains overlooked and understudied. In doing so, it lays down a challenge to policy-makers and educators everywhere to think differently about the way we learn and, ultimately, help students fulfil their real potential.' -Carl O'Brien, Chief Reporter for The Irish Times 'Inside Education is a stunning example of passionate scholarship that nonetheless refuses a redemptionist stance. The ethnography captures people and contexts and draws the reader into the four sites of learning in fluent and lyrical prose. This is facilitated by the extensive use of research notes deploying historical, comparative, literary, artistic and scholarly sources." -Denis O'Sullivan, Emeritus Professor of Education, University College Cork, Ireland
