Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

The Handbook of Fraud Deterrence encompasses the applicable professional standards and common applications for forensic accounting, fraud deterrence, and fraud investigation services. It is the first book that explains fraud deterrence through internal control improvement within the structure of forensic accounting procedures.

Reproduction of the original: Speeches of Benjamin Harrison by Charles Hedges

This text aims to provide an understanding of the basic principles of electronics related to the communication, control and computer systems which affect life. Practical applications of the subject are considered throughout, and actual devices and their uses are described, to encourage the reader to do some electronics. Mathematical requirements have been kept to a minimum.;The book is not based on any single syllabus but is suitable for students taking BTEC units Electronics NII and NIII, City and Guilds Electronics Servicing (course 2240), GCSE and A'Level course, and short courses in further and higher education.;This second chapter has been updated with additions to certain chapters, particularly those on digital systems and computing.

New edition provides a clear pathway through the content to maximize class time and minimize preparation time with lesson plans, activities and assessment based on the research of Jay McTighe, co-author of Understanding by Design.
