Since the 1950s, Dodge has produced a series of charismatic performance cars that have given the company a unique reputation among American car makers. The original Charger and Challenger and the more recent Viper and Caliber SRT are outstanding examples of the company's commitment to cars of high performance and aggressive styling. Peter Grist's pictorial history of these typically American machines gives a fascinating insight into their ancestry and evolution and celebrates the huge impact they have made on the road and on the track. His account is an exciting introduction that will appeal to everyone who is interested in American automobile history. The book features these historic cars and the drivers who have raised Dodge to a pre-eminent position over the last 50 years. Featuring illustrations of Dodge's styling experiments and concept cars, which had such a strong effect on their production models,
