This title covers the entire syllabus for Cambridge International Examinations' International AS and A Level Biology (9700). It is divided into separate sections for AS and A Level making it ideal for students studying both the AS and the A Level and also those taking the AS examinations at the end of their first year. - Explains difficult concepts using language that is appropriate for students around the world - Provides practice throughout the course with carefully selected past paper questions at the end of each chapter We are working with Cambridge International Examinations to gain endorsement for this title.

This collection presents new investigations into the role of heritage languages and the correlation between culture and language from a pedagogic and cosmopolitical point of view. Produced with University of Cambridge International Examinations, the Toolkit helps teachers to develop language awareness to support their students with the academic language they need to be successful in subjects taught through English. With reflective questions and activities, it can be used either for self-study or in training modules. Useful for both content and English language teachers, it is aimed primarily at those who teach students for whom English is not their first language - for example as part of a bilingual or CLIL programme or in an international English-medium school.
