everyone in between This course teaches what we call 'Word Building', which is the knowledge of how all medical words are structured. It's a quick, efficient and amazingly easy way for anyone to learn medical terminology. You learn how to recognize the meaning of a medical term by dividing the word into its three basic component parts: the prefix, root and suffix. By knowing the meanings of the prefixes, suffixes, and root words, you can easily make sense of a medical term. This course is designed for the healthcare claims biller, the medical insurance claims adjuster, the medical office worker, or anyone wanting to learn medical terminology. The course takes the average person 3 weeks or less to complete based on a study time of 1-2 hours per day.

Medical Terminology for Health Professions, Sixth Edition, simplifies the process of learning hundreds of complex medical terms. The See and Say pronunciation system makes pronouncing unfamiliar terms easy. Because word parts are integral to learning medical terminology, mastery of these building blocks is emphasized in every chapter. Organized by body system, chapters begin with an overview of the structures and functions of that system so you can relate these to the specialists, pathology, diagnostic, and treatment procedures that follow. Learning Exercises in each chapter offer a variety of formats that require written answers. Writing terms reinforces learning and provides practice to help master spelling and enhance comprehension.
