"To change the way students see the world: this is my goal in teaching economics and in writing this book. Three facts about students are my guiding principles. First, they want to learn, but they are over-whelmed by the volume of claims on their time and energy. So, they must see the relevance to their lives and future careers of what they are being asked to learn. Second, students want to get it, and get it quickly. So, they must be presented with clear and succinct explanations. And third, students want to make sense of today's world and be better prepared for life after school. So, they must be shown how to apply the timeless principles of economics and its models to illuminate and provide a guide to understanding today's events and issues, and the future challenges they are likely to encounter. The organization of this text

interest, applications that illustrate concepts, and the tools to test and solidify comprehension. Students come into their first Economics course thinking they will gain a better understanding of the economy around them. Unfortunately, they often leave with many unanswered questions. To ensure students actively internalize economics, O'Sullivan/Sheffrin/Perez use chapter-opening questions to spark interest on important economic concepts, applications that vividly illustrate those concepts, and chapter-ending tools that test and solidify understanding.

Think like an economist! Economics touches almost every aspect of life, from climate change to terrorism, taxes to house prices, wages, to how much time to spend studying! Thinking like an economist will enable you to evaluate economic policies, understand human behaviour, and make more informed decisions. This comprehensive revision retains the hallmarks of previous editions, with a thorough and detailed presentation of the principles of economics and on the development of your critical thinking skills. With the addition of new features, such as At Issue and Economics in the News, this new edition uses real-world examples and applications to incorporate the latest developments in the Eurozone and UK policy. The leading economists in the news today started out like you, as students taking a course in the principles of economics. Like them, you can learn to think like an economist, and this book will show you how. New to this edition: *New feature* End-of-chapter worked problem supports learning by doing and offers an active review of the chapter *New feature* Each chapter starts with a real problem or question which is then developed through the Economics in the News section and additional end-of-chapter questions, supporting critical thinking development *Reimagined feature* All Economics in the News sections have been updated and emphasise solid coverage of real

suggestions of reviewers and users, and seamlessly integrated with MyEconLab: These are the hallmarks of this eleventh edition of Economics. Parkin brings critical issues to the forefront. Each chapter begins with one of today's key issues, and additional issues appear throughout the chapter to show the real-world applications of the theory being discussed. When the chapter concludes, readers "read between the lines" to think critically about a news article relating to the issue, demonstrating how thinking like an economist can bring a clearer perspective to and deeper understanding of today's events. Readers will begin to think about issues the way real economists do and learn how to explore difficult policy problems and make more informed decisions in their own economic lives. Parkin is so committed to currency that he uploads news articles almost daily to MyEconLab®, the online assessment and tutorial system that accompanies the text. Assessment questions based on the Economics in the News articles are uploaded periodically so that instructors can assign recent articles within MyEconLab. Note: If you are purchasing the standalone text or electronic version, MyEconLab does not come automatically packaged with the text. To purchase MyEconLab, please visit: www.myeconlab.com or you can purchase a package of the physical text + MyEconLab by searching the Pearson web site. MyEconLab is not a self-paced technology and should only be purchased when required by an instructor.

A little Economics training can go a long way in helping you understand the real world you live in. Assistant Professor of Economics Evie Adomait, along with her writing partner Richard Maranta, write simply about what can appear to be a complicated subject while never dumbing down the intellectual ideas which make Economic thought so important in this day and age.

From the classroom to a cocktail party, this book will help you hold your own in conversations about Economics.

A practice-oriented learning system with a global perspective. Macroeconomics is structured around a system of checkpoints which teach students how to think like an economist. Explore the interactive brochure Eye On boxes throughout each chapter challenge students to apply theory to important issues and problems that shape our global society and individual decisions. The result is a patient, confidence-building program that prepares students to use economics in their everyday lives, regardless of what their future career will be. Pearson recommends including MyEconLab with your textbook purchase. Personalised practice quizzes, guided solutions, adaptive multimedia learning tools and homework can be integrated with an optional eBook version of Macroeconomics: Australia in the Global Economy.
