Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques

and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

In the third book of The End series, Joshua Jordan remains in Israel during his self-imposed "exile" out of the reach of U.S. authorities who have trumped-up false criminal treason charges against him. His wife, Abigail, continues to lead the Roundtable to prove the innocence of her husband. Following the nuclear attack by Russia, Israel is cleaning up the bodies of dead enemy soldiers for 7 months and setting out on its 7 year plan—both per the prophecies in Ezekiel. As corruption in high government offices threaten to block the election of a worthy presidential candidate by all means necessary—including the unthinkable—Israel's leadership is tempted to sign a "peace" proposal initiated by the UN under the authority of Coliquin. After he discusses this plan with Pastor Peter Campbell, Joshua is convinced Coliquin may well be the prophesied Anti-Christ and that his peace plan is a trap to destroy Israel. Are the recurring dreams Joshua has had about the coming rapture from God. And is the end sooner than anyone expects?

From Paris in the 1920s to London after the Blitz, two women find that a secret from their past reverberates through years of joy and sorrow.... As recovery from World War II begins, expat American Nora Tours travels from her home in southern France to London in search of her missing sixteen-year-old daughter. There, she unexpectedly meets up with an old acquaintance, famous model-turned-photographer Lee Miller. Neither has emerged from the war unscathed. Nora is racked with the fear that her efforts to survive under the Vichy regime may have cost her daughter's life. Lee suffers from what she witnessed as a war correspondent photographing the liberation of the Nazi concentration camps. Nora and Lee knew each other in the heady days of late 1920s Paris, when Nora was giddy with love for her childhood sweetheart, Lee became the celebrated mistress of the artist Man Ray, and Lee's magnetic beauty drew them all into the glamorous lives of famous artists and their wealthy patrons. But Lee fails to realize that her friendship with Nora is even older, that it goes back to their days as children in Poughkeepsie, New York, when a devastating trauma marked Lee forever. Will Nora's reunion with Lee give them a chance to forgive past betrayals...and break years of silence to forge

a meaningful connection as women who have shared the best and the worst that life can offer? A novel of freedom and frailty, desire and daring, *The Beautiful American* portrays the extraordinary relationship between two passionate, unconventional women. Readers Guide Included

An updated handbook provides a definitive overview of the latest digital techniques for recording music both on location and in recording studios, covering equipment selection and use, acoustics, microphone techniques, and analog and digital recording, as well as all new coverage of digital recording technology and techniques, a detailed instrument frequency range chart, special sound effects, and more. Original. (Intermediate)
