Suitable for absolute beginners of all ages, this title intends to get them up and running and using their computer for the most popular tasks. It teaches them how to type and print documents, access information and entertainment resources on the World Wide Web, communicate via e-mail and use many of the features of Microsoft Windows 7.

Everyone wants to go to Heaven but how do you get there? Do you have to do something special?

I Was a Really Good Mom Before I Was a Really Good Mom Before I Had Kids -- "I don't know how she does it!" is an oft-heard refrain about mothers today. Funnily enough, most moms agree—they have no idea how they get it done, or whether they even want the job. Trisha Ashworth and Amy Nobile spoke to mothers of every stripe—working, stay-at-home, part-time—and found a surprisingly similar trend in their interviews. After enthusing about her lucky life for twenty minutes, a mother would then break down and admit that her child's first word was "Shrek." As one mom put it, "Am I happy? The word that describes me best is challenged." Fresh from the front lines of modern motherhood comes a book that uncovers the guilty secrets of moms today . . . in their own words. I Was a Really Good Mom Before I Had Kids diagnoses the craziness and offers real solutions, so that mothers can step out of the madness and learn to

Yes, some women are opting out of their careers, taking an "off-ramp," and heading home to raise their babies. But millions of us cannot afford to make that choice. And millions more choose to work because we love our careers. So how are women holding on to financially necessary or stimulating and rewarding careers and still being engaged mothers? Wendy Sachs, journalist and mother of two, set out to find what's really happening at the intersection of motherhood and work today. Based on her in-depth interviews with mothers from diverse backgrounds, *How She Really Does It* explores the creative and courageous ways in which stay-at-work moms are making it happen. Here are the moms next door—as well as lawyers, doctors, entrepreneurs, fashion designers, journalists, and television personalities—who are navigating the everyday work/home conflicts, and, yes, dealing with the guilt. Through it all, they are empowered career women and caring, present mothers. A modern working woman's survival guide, *How She Really Does It* will give you hope that even if you can't have it all, you can have at least some of it all of the time.

Go Hollywood—with a complete, insightful look at the biggest jobs on the movie set • One-stop shopping for anyone who wants to work in film • The only behind-the-scenes title that offers a detailed look at the industry • Explores more than 35 jobs! www.dzyak.com .

Combines philosophical, curious, and sometimes ridiculous questions to suggest thought-provoking answers covering such topics as the origin of the world, the mind and its powers, ethical issues, and knowledge.

Describes the entire process of shooting and editing a video, covering such topics as selecting a camcorder, writing a script, composing shots, editing raw footage, and posting it on the Internet.

There are approximately 500 different Online Survey Companies advertised on the Internet. I've participated in several online surveys for cash and researched hundreds of them. I've found that, just like everything else in life, there are the good, the bad, and the really, really ugly. The good survey companies consist of those that actually pay you a little bit of money for your time, don't sell your information to telemarketers, don't send you thousands of e-mails, most of which end up in your bulk mailbox, and tell you exactly what each survey you're taking is worth in terms of dollars. The good survey companies are an excellent way to bring in a few extra dollars from the privacy of your home. This book will introduce you to the top 20 survey companies and the pros and cons of each one so you can pick and choose and save a lot of time and effort doing it yourself. It will also introduce you to a very effective method to cash in on online surveys! Shall we get started?
