Explores more than 100 Old Testament themes. Each entry states the consensus reading, identifies what is at issue in the interpretive question, and discusses the practical significance of the issue for the church today, in part by suggesting contemporary connections to the ancient texts.--

In this volume, Walter Brueggemann writes on Isaiah 1-39, which many scholars believe had a single author, Isaiah, of the eighth century BCE, who wrote in the context of the Assyrian empire between 742 and 701. Books in the Westminster Bible Companion series assist laity in their study of the Bible as a guide to Christian faith and practice. Each volume explains the biblical book in its original historical context and explores its significance for faithful living today. These books are ideal for individual study and for Bible study classes and groups.

New and different readings of biblical texts are one consequence of a growing awareness of the environmental crisis and how it relates to social relations, especially in urban settings. Walter Brueggemann explores readings from Isaiah and how they relate to the environment and urban crisis. He approaches the readings as an artistic-theological history of the city of Jerusalem--a case study of urban environmental crisis that resulted from a lost sense of covenantal neighborliness. Reflecting on Jerusalem, its failure, demise, and prospect, Brueggemann uncovers some alarming parallels in today's urban cities, and offers a demanding but hopeful challenge to faith.

Respected author and theologian Walter Brueggemann turns his discerning eye to the most critical yet basic needs of a world adapting to a new era, an era defined in large part by America's efforts to rebuild from an age of terror even as it navigates its way through an economic collapse. Yet in spite of these great challenges, Brueggemann calls us to journey together to the common good through neighborliness, covenanting, and reconstruction. Such a concept may seem overwhelming, but writing with his usual theological acumen and social awareness Brueggemann distills this challenge to its most basic issues: where is the church going? What is its role in contemporary society? What lessons does it have to offer a world enmeshed in such turbulent times? The answer is the same answer God gave to the Israelites thousands of years ago: love your neighbor and work for the common good. Brueggemann considers biblical texts as examples of the journey now required of the faithful if they wish to move from isolation and distrust to a practice of neighborliness, as an invitation to a radical choice for life or for death, and as a reliable script for overcoming contemporary problems of loss and restoration in a failed urban economy.

In Mandate to Difference, renowned theologian Walter Brueggemann sets forth a new vision of the Christian church in today's world. Based on speaking engagements surrounding his critical passion and conviction that the church in this moment must set itself in tension with the rest of the world, these essays call the church to courageously defy political polarization, consumerism, and militarism.

In this volume, Walter Brueggemann focuses on Second Isaiah (Isaiah 40-55), believed to be written by a second exilic poet, and Third Isaiah (Isaiah 56-66), a third group of texts that rearticulate Isaianic theology in yet another faith situation. Brueggemann discusses both the distinctiveness of the texts and their canonical relatedness. Books in the Westminster Bible Companion series assist laity in their study of the Bible as a guide to Christian faith and practice. Each volume explains the biblical book in its original historical context and explores its significance for faithful living today. These books are ideal for individual study and for Bible study classes and groups.

In this, the first overview of biblical theology in nearly thirty years, James K. Mead addresses the core issues of biblical theology essential to both Old Testament and New Testament study. Can we draw theological principles from Scripture? What methods will give useful results for theological exploration of biblical texts? Aptly synthesizing classic and recent scholarship while asserting his own theological findings, Mead provides an excellent overview of the history of biblical theology and a thorough examination of its basic issues, methods, and themes.

In these reflections, the authors write that the Bible, as the live word of the living God, will not submit to the accounts we prefer to give of it. They note that taking the Bible most seriously means struggling to understand its meaning as well as affirming its truth.

A number of moving prayers can be found in the Old Testament and throughout Scripture. In this accessible volume, world-renowned scholar Walter Brueggemann offers his insight and wisdom on twelve prayers in the Old Testament, listening to the biblical text and explaining how these examples of ancient prayer can make prayer come alive for us today. Among the prayers explored are those by Abraham, Moses, Hannah, David, Solomon, Jonah, Jeremiah, Hezekiah, Ezra, Hehemiah, Daniel, and Job. The prayers in this volume express joy and lament and show the depths of human experience and the majestic grace of a loving God who hears everything and takes every prayer to heart.

In this book Walter Brueggemann, America's premier biblical theologian, introduces the reader to the broad theological scope and chronological sweep of the Old Testament. He covers every book of the Old Testament in the order in which it appears in the Hebrew Bible and treats the most important issues and methods in contemporary interpretation of the Old Testament--literary, historical, and theological.
