explained. Multiple model representations are employed as per necessity. Problems complementing the text are extensively given. About the Book: 'Basic Laws of Electromagnetism' is a book describing the Fundamental Laws of Electromagnetism with allied examples to help and enable the readers to attain a deeper understanding of the subject and visualize the wide range of applications of the ideas discussed. The book lays emphasis on the physical aspects of the phenomena, avoiding superfluous mathematical formulae. The textbook is quite handy for the students of senior secondary and undergraduate levels, and also for various engineering and medical entrance examinations. This is newly typeset print of a 'Classical Book' in Physics.

Special Features: · It is the only one of its kind, because no other book offers solutions to all of Irodov's problems (1052). The nearest competitor, by DB Singh, has missed many problems. Further, experts find that solutions given in this book are tedious, and Abhay Kumar Singh's solutions are crisper. · The third edition builds on the success of earlier editions in terms of sales and the accuracy of solutions. · The author is respected and experienced. His name is synonymous with Irodov solutions among IIT-JEE aspirants. · There are many new alternate, as well as modified solutions which are crisper, in addition to better diagrams, which are more accurate. · The figures are better in quality because they are digitally-printed. The earlier editions had hand-
