SG-1 wanted the technology to save Earth from the Goa'uld but the mission failed. Now Washington wants Jack O'Neill's blood and Senator Robert Kinsey is forcing the issue. The Tok'ra mission may help O'Neill, but it is very risky because it means infiltrating a Goa'uld slave breeding farm to recruit humans willing to join the Tok'ra.

SG-1 discover a creature of unimaginable evil lurking beneath the ancient sands of Egypt a creature the insane Goa'uld Neheb-Kau wants as a terrible weapon. With Teal'c and Major Carter in the hands of the enemy, Colonel O'Neill and Daniel Jackson enlist Master Bra'tac. They track the creature across the galaxy in a desperate bid to destroy it before it turns their friends and the galaxy to dust.

PREPARE FOR JUDGEMENT! Hot on the trail of a cargo of illegal bio-weapons, Judge Dredd boards the Cityship Sargasso, a vast agglomeration of ancient toxic waste tankers loaded with refugees from warzones around the world. It is also home to large populations of mutants and scavengers, so when the law comes on board, Dredd finds himself as a most unwelcome guest. But when one of the bio-weapons is released from stasis, Dredd must stop it before it sets about fulfilling its single pre-programmed function: to destroy everything in its path.

in a world known as P4V-837, the SG-1 team encounters the Kayeechi, a race of apparently hospitable natives, but, after a few hours on the planet, the members of the team find themselves experiencing bizarre hallucinations that become progressively darker and more terrifying. Reissue. (A Sci-Fi Channel series, starring Richard Dean Anderson)

From The Matrix and Harry Potter to Stargate SG:1 and The X-Files, recent science fiction and fantasy offerings both reflect and produce a sense of the religious. This work examines this pop-culture spirituality, or "postmodern sacred," showing how consumers use the symbols contained in explicitly "unreal" texts to gain a secondhand experience of transcendence and belief. Topics include how media technologies like CGI have blurred the lines between real and unreal, the polytheisms of Buffy and Xena, the New Age Gnosticism of The DaVinci Code, the Islamic "Other" and science fiction's response to 9/11, and the Christian Right and popular culture. Today's pervasive, saturated media culture, this work shows, has utterly collapsed the sacred/profane binary, so that popular culture is not only powerfully shaped by the discourses of religion, but also shapes how the religious appears and is experienced in the contemporary world.

Past imperfect Stranded in Ancient Egypt at the end of the STARGATE SG-1 episode Moebius, Jack O'Neill, Sam Carter, Teal'c and Daniel Jackson are enjoying the simple lives they've forged in the years since Ra was driven from Earth. But life never stays simple for long... Back in the twenty-first century, trouble strikes the SGC. With one of their own people snatched by renegade Tok'ra, Colonel Cameron Mitchell leads the new SG-1 on a chase through time to rescue their friend - and to protect their future. But for Carter, Daniel and Teal'c, the greatest challenge is encountering themselves - and coming to terms with the consequences of their own choices. Moebius Squared "So this..." Cam gestured to the machinery. "This can only move us backwards and forwards in our own timeline." "That's my best guess," Sam said. She pushed her bangs back out of her face. Her hair had grown out and was now caught in a ponytail at the back of her neck. "Just like Janus' puddlejumper." "I don't even want to think about that thing," Daniel said. "Or anything else to do with Janus." He winced. "Sorry," Sam said. "Sore spot." "Damn right." Daniel had only been out of the infirmary for two weeks since his latest brush with one of Janus' inventions. This one had gotten him kidnapped and electrocuted. They all spun around as the gate began to activate. "Firing positions," Cam said, crouching down beside the control panel. If someone were making a grab for Ba'al's facility... The wormhole opened and stabilized, a glittering puddle of blue. Cam's radio crackled. "SG-1, this is Stargate Command. You are to return to Earth immediately." What the...? Cam chinned his radio on. "Stargate Command, we still have a lot to do here. Colonel Carter..." "Return immediately," the voice of Sergeant Harriman said firmly. "Stargate Command has been attacked."

This first book of the Second Sons Trilogy establishes Jennifer Fallon as one of the most unique voices in fantasy fiction, as she creates full characters, and takes intelligent plotting to a whole new level in order to establish unparalleled complexity and tension. On the world Ranadon there is no night as both suns shine brightly. The intervention of Belagren, High Priestess of the Shadowdancers, and the sacrifice of a child of royal blood, has banished the Age of Shadows from the skies. Belagren's position is unquestioned . . . until circumstances begin to tip political rivalries into a deadlier game altogether. A volcanic eruption rocks the seas separating the Kingdom of Dhevyn and the mainland Kingdom of Senet, and a mysterious sailor is shipwrecked on the island of Elcast. Badly wounded, his arrival stirs up old hatreds and unravels old secrets. His presence is enough to even bring Antonov, the powerful Lion of Senet, to the island and fear to the Keep of the Duke of Elcast. A strong friendship develops between Dirk, second son of the Duke, and Kirshov Latanya, second son of the Lion of Senet. But will they, and their friendship, survive the chain of events set in motion by the ambitions of the ruthless High Priestess of the Shadowdancers and the domineering Lion of Senet?

The unity of the team is threatened on their first mission.

The subject presented in this book is the result of a long study and research upon the seamanship of the ancient and medieval world. It aims to investigate the ability of ancient exploration voyages to the great oceans and to present, in a simple and understandable manner, all those components that shed light on an ancient effort to explore the Atlantic Ocean and probably even the American continent.
