Statistics show that 90% to 95% of retail traders are not profitable. After reading this book you will learn how to be in the remaining 5 - 10% of consistently profitable crypto traders. Hi, my name is Andy LaPointe and prior to getting involved with cryptocurrencies and blockchain in 2013, I spent 15 years as a registered investment advisor, Series 7 stockbroker and mutual fund wholesaler. As a mutual fund wholesaler, I spoke with, have been trained by and worked with many of the world's top institutional money managers including Bill Gross from Pimco, Louis Navellier, Blackrock, State Street Global Advisors and more. What this means to you is after you have completed this one-of-a-kind book, you'll learn the trading behaviors and thought patterns you need to be successful as a crypto trader. You'll possess the right mindset to become a successful, consistent and long-term crypto trader. You see, the crypto market is different than any other type of market. The reason is the crypto market moves so fast. There is no other market that is as fast as cryptocurrencies. What I mean is, prices in crypto can go up 50% in a day and the very next day fall back nearly 50%, too. So having the right mindset and approach to crypto trading is vital. My book will help you to protect your capital, identify more reliable trades and time your entries to increase the probability of success. This means you'll be able to consistently make more money while limiting frequency of losses. This is accomplished by providing you a complete crypto trading road map starting with how to create the right mindset created especially for trading cryptocurrencies. You'll learn how to see the bigger picture, in the same way that the "smart money" and professional crypto traders see it. Crypto traders must learn and employ the right disciplined approach to identify high-probability trade sets and not get caught up in the FOMO (Fear Of Missing Out). You can have the best technical analysis skills, you can have a five or six figure trading account, but unless you possess the right crypto trading mindset, all of that other stuff isn't going to matter. You see, many crypto traders think by using their wits and cleverness they can be long-term and successful traders. Unfortunately, that is the worst approach to trading. Understanding how to trade the fast and extremely profitable crypto currency market, traders need to follow a grounded and disciplined approach. When you think about it, isn't that what you really want? To learn how to trade without emotion and follow a time-tested, grounded and disciplined trading
