In the first major biography of Thiel, Max Chafkin traces the trajectory of the innovator's singular life and worldview, from his upbringing as the child of immigrant parents and years at Stanford as a burgeoning conservative thought leader to his founding of PayPal and Palantir, early investment in Facebook and SpaceX, and relationships with fellow tech titans Mark Zuckerberg, Elon Musk, and Eric Schmidt. The Contrarian illuminates the extent to which Thiel has sought to export his values to the corridors of power beyond Silicon Valley, including funding the lawsuit that destroyed the blog Gawker and strenuously backing far-right political candidates, notably Donald Trump for president in 2016. Eye-opening and deeply reported, The Contrarian is a revelatory biography of a one-of-a-kind leader and an incisive portrait of a tech industry whose explosive growth and power is both thrilling

complex nature of Japan's promotion of English as a Foreign Language (EFL). In globalized societies where people with different native languages communicate through English, multicultural and multilingual interactions are widely created.

This book takes the opportunity to look at Japan and examines how these multiple realities have affected its English language teaching within the domestic context. The myth of Japan's racial and ethnic homogeneity may hinder many Japanese in recognizing realities of its own minority groups such as Ainu, Zainichi Koreans, and Brazilian Japanese, who are in the same EFL classrooms.

Acknowledging a variety of English uses and users in Japan, this book emphasizes the influence of Japan's recent domestic diversity on its EFL curriculum and urges that such changes should be addressed. It suggests new directions for incorporating multicultural
