by 12 foot soldiers from the ranks - eight Argentinians and four Britons.;It describes the appalling treatment the Argentinian conscripts suffered at the hands of their own generals; the emotions of soldiers meeting face-to-face ten years after they tried their hardest to kill one another; and the terror of battle as experienced by the ordinary soldier.;The author, who also wrote "Excursion to Hell", joined the Parachute Regiment in 1978 at the age of 20. After service in Canada, Oman, Northern Ireland and the Falklands, he was assigned to training recruits. He left the army as a Lance Corporal in 1987.

Krigerindringer. Underkorporal Vincent Bramley, der var tjenstgørende ved "3 Para" en britisk faldskærmsjægerenhed, skriver, hvad han så og følte under Falklandskrigen 1982, og de strabadser både de britiske og argentinske soldater blev udsat for under krigen.

The unique and harrowing account of the most destructive battle of the Falklands War as seen through the eyes of eight ordinary Argentinian soldiers from the seventh infantry regiment and five British paratroopers. Vincent Bramley was a Lance-Corporal and gives a unique and chilling perspective on the horrors of battle. This is a testament to those who bear the brunt of the fighting and a no-holds-barred account of what it is really like to have to do the dirty work of war, where you have to kill or be killed, and sometimes you are pushed over the edge.

Surrounding the war with an aura of nostalgia both fosters the delusion that war can cure our social ills and makes us strong again, and weakens confidence in our ability to act effectively in our own time."—Journal of Military History

War exposes the divide between who we think we are and how we behave in extreme situations. Sheri Snively, who served as a Quaker chaplain with the U.S. Navy, has crafted a vivid, unsettling, and ultimately hopeful personal account of the effects of the Iraq war on soldiers and civilians in *Heaven in the Midst of Hell*. As she served with the Marines working amid the boredom, tension, and seemingly meaningless carnage at a trauma hospital between Ramadi and Fallujah, Commander Snively experienced first-hand the grim reality of combat. As she recounts the way she and the soldiers around her experience war, she negotiates a compassionate path to healing -- marked not by formulaic answers, but by an open and questioning spirit. Illustrated with the author's own evocative photographs, this is a compelling and unforgettable journey into the human soul.

The story twists all of the emotions one might imagine having when tortured with the lies and deceit which come along with divorce. The nasty head of reality is a protagonist with a need to tell the story of an angry man and how he feels about the void it leaves when the deed is done. There is loss, pain, astonishment and more than that: the void will become the lasting reminder of the story. Embellishment is made at times to make the point, but nevertheless, this is the truth as seen by one human. The content is jumpy and loosely joined as facts are made up when one proceeds through the lives of a dysfunctional marriage, with death on the door step at all hours and the loss of life for little reason. Nothing is neatly packaged as life never seems to have rules that are lasting, nor something you should count on. Remember, there are 90 million divorced people in the United States, and this is just one of those stories.
