Cutting the abdomen is bad, but leaving the living child to suffocate in her womb until he dies is a greater evil. So cutting becomes the lesser of two evils. Moreover, we say that in such cases, cutting is not regarded as mutilation or evil, so there is nothing to rule out extracting the foetus at all. And Allaah knows best. End quote.

There is surprisingly little evidence that living in poor neighbourhoods makes people poorer and erodes their life chances, independently of those factors that contribute to their poverty in the first place. There is evidence from the US that moving people from deprived neighbourhoods to more affluent ones does not improve their economic prospects.

Winner of the 2010 National Book Critics Circle Award for Biography How to get along with people, how to deal with violence, how to adjust to losing someone you love—such questions arise in most people's lives. They are all versions of a bigger question: how do you live? How do you do the good or honorable thing, while flourishing and feeling happy? This question obsessed Renaissance writers, none more than Michel Eyquem de Montaigne, perhaps the first truly modern individual. A nobleman, public official and wine-grower, he wrote free-roaming explorations of his thought and experience, unlike anything written before. He called them "essays," meaning "attempts" or "tries." Into them, he put whatever was in his head: his tastes in wine and food, his childhood memories, the way his dog's ears twitched when it was dreaming, as well as the appalling events of the religious civil wars raging around him. The Essays was an instant bestseller and, over four hundred years later, Montaigne's honesty and charm still draw people to him. Readers come in search of companionship, wisdom and entertainment—and in search of themselves. This book, a spirited and singular biography, relates the story of his life by way of the questions he posed and the answers he explored. It traces his bizarre upbringing, youthful career and sexual adventures, his travels, and his friendships with the scholar and poet Étienne de La Boétie and with his adopted "daughter," Marie de Gournay. And we also meet his readers—who for centuries have found in Montaigne an inexhaustible source of answers to the haunting question, "how to live?"

In these Talks, given in Europe, Ojai and India, Krishnamurti addresses the need to approach our life problems in a manner does not perpetuate fragmentation. "Though we have many problems, and each problem seems to produce so many other problems, perhaps we can consider together whether the wisest thing to do is, not to seek the solution of any problem at all. It seems to me that our minds are incapable of dealing with life as a whole; we deal, apparently, with all problems fragmentarily, separately, not with an integrated outlook. Perhaps the first thing, if we have problems, is not to seek an immediate solution for them, but to have the patience to inquire deeply into them, and discover whether these problems can ever be solved by the exercise of will. What is important, I think, is to find out, not how to solve the problem, but how to approach it." An extensive compendium of Krishnamurti's talks and discussions in the USA, Europe, India, New Zealand, and South Africa from 1933 to 1967—the Collected Works have been carefully authenticated against existing transcripts and tapes. Each volume includes a frontispiece photograph of Krishnamurti , with question and subject indexes at the end. The content of each volume is not limited to the subject of the title, but rather offers a unique view of Krishnamurti's extraordinary teachings in selected years. The Collected Works offers the reader the opportunity to explore the early writings and dialogues in their most complete and authentic form.

The book is a reading of numerous contemporary continental philosophers (Badiou, Deleuze and Guattari, Laruelle and Derrida amongst others) and bringing them into conversation with each other around various ethical and political challenges of living in capitalist worlds. What can contemporary continental philosophy offer with regards to the questions of decolonial thinking, the challenges of identity politics, the formation of political identities in response to the dominant norms in the context of the struggles of victims of these norms?

Having observed thousands and thousands of people from virtually every walk of life, with every advantage or disadvantage, Sonia Choquette can confidently say that the only ones who genuinely succeed, who find peace and joy in their hearts and take great pleasure in their experiences, have a different way of going about things. Rather than relying solely on their egos—their defended, insecure personalities—suffering the assaults life renders them, they turn to a higher aspect of their nature, the Spirit within, and let this direct their lives. The ten simple yet necessary steps outlined in this book will allow you to make that connection to your authentic Spirit and experience your truth. As Sonia says, "These aren't just metaphysical theories, but are tried-and-true, grounded practices that will lead you directly back to you: the best, holiest, most delightful and delighted you, free of fear and filled with light." The most exciting part is that learning to love yourself and live your Spirit is actually quite simple when you realize the truth revealed herein: that you are not the ego, but rather are Divine, Holy Spirit. Once you do, everything will come alive in light and joy. Love yourself and live your Spirit, and your life flows peacefully. It really is that simple

Living on Purpose (The Poetry of Life) is full of inspirational and uplifting poetry for everyone. The poems offer practical solutions to many of our daily problems. They offer guidance and direction as well.

Practical Disciplines of a Christian Life is for women who are looking for helpful information on how to apply the various Christian disciplines into their lives. This book will also give readers encouragement through their reading about other historical figures (through short biographical sketches) who have struggled with the same issues as the reader. Each chapter ends with applications readers can use to begin growing in the individual disciplines each chapter covers. Practical Disciplines of a Christian Life ends with a chapter which encourages readers to continue growing and moving forward in their Christian life, reminding them that it is not a one-time deal, but that they are to grow each and every day. They are to look for ways that God has moved them forward in their Christian growth by being able to look back and see where they have come from. Overall, Practical Disciplines of a Christian Life is to be an encouragement to all women who read it that they, too, can move forward in their Christian growth and they don't have to feel stuck in place. Some Christian disciplines are a 'trial and error' before acquiring the knack of doing it right.

This book is based on the William James Lectures delivered at Harvard University in 1982. It offers a new approach to the philosophical understanding of a person, taking as fundamental the process of living as a person, and emphasising the continuity and development across time of an individual life.
