Scenography – the manipulation and orchestration of the performance environment – is an increasingly popular and key area in performance studies. This book introduces the reader to the purpose, identity and scope of scenography and its theories and concepts. Settings and structures, light, projected images, sound, costumes and props are considered in relation to performing bodies, text, space and the role of the audience. Concentrating on scenographic developments in the twentieth century, the Introduction examines how these continue to evolve in the twenty-first century. Scenographic principles are clearly explained through

The book contends that scenography is no longer restricted to the traditional space of the theatre, but has become an important concept for approaching art historical and contemporary objects and events. It explores scenography not solely as a critical approach and theoretical concept, but also as an important practice linked with unrecognized labour and broader political, social and gendered issues in a great variety of contexts, such as festive culture, sacred settings, fashion, film, or performing arts. Focused on the contemporary Anglophone adoption from the 1960s onwards, *Beyond Scenography* explores the porous state of contemporary theatre-making to argue a critical distinction between scenography (as a crafting of place orientation) and scenographics (that which orientate acts of worlding, of staging). With sections on installation art and gardening as well as marketing and placemaking, this book is an argument for what scenography does: how assemblages of

Scenographic traits orientate, situate, and shape staged events. Established stage orthodoxies are revisited - including the symbiosis of stage and scene and the aesthetic ideology of 'the scenic' - to propose how scenographics are formative to all staged events. Consequently, one of the conclusions of this book is that there is no theatre practice without scenography, no stages without scenographics. Beyond Scenography offers a manifesto for a renewed theory of scenographic practice.
